

The Historic Mill Valley

You'll find us in Clipper Mill's Foundry Building, a place that manufactured steam engines and water wheels in the 1850s, helping to create the first railroads. This historic space, nestled in the Jones Falls valley, is an architectural marvel from an era when the worker and his trade were intrinsic to the community and valued for it. Gutierrez Studios proudly contributes to restoring that value.

From North of Baltimore

Take the Jones Falls Expressway (I-83) south to Cold Spring Lane, exit 9A. At the exit, make a left onto Cold Spring Lane (East) and follow for .4 miles. At the second light, turn right onto Falls Road. Continue for .7 miles. Make a right at Union Avenue (if you reach 34th street, you just passed it). Follow Union for .4 miles. Cross light rail tracks bearing right onto Clipper Road. Then turn left onto Clipper Park Road — the entrance of Clipper Mill.

From DC & Points South

Take I-95 N to Baltimore. Exit onto I-395 towards "Downtown." Continue past stadiums to Pratt St. and turn right. Pass the Convention Center and Inner Harbor area. Turn left at President Street. This will become the Jones Falls Expressway (I-83 N). Follow to Falls Road, exit 9. Continue on Falls Road for approximately 2 blocks. AFTER the 2nd traffic light (37th St) make a left onto Union Avenue. Follow Union Avenue (.4 miles), make a right onto Clipper Road and a left onto Clipper Park Road. Cross light rail tracks bearing right onto Clipper Road. Then turn left onto Clipper Park Road — the entrance of Clipper Mill.

Parking

Gutierrez Studios is located at 2010 Clipper Park Road, Suite 129. From the main entrance, we are in the center of the campus on the right above the Plaza. Parking is available behind our building in the Foundry lot. Continue on Clipper Park Road and you will see it on the right.
